

With over 3500 members,
ERSA is the largest regional science organisation in the world.

ERSA presently incorporates
18 national and linguistic associations
across the whole of Europe.

Members are scientists, researchers and policy professionals covering the fields of spatial economics and planning, regional, urban and local development and related issues.

The **ERSA network** is of great interest not only for governments at different levels, from local up to international organisations, but also for the private sector, civil society associations, and NGOs.

Its offer includes:

- Customised seminars, workshops and conferences
- Executive education and tailor-made training programmes
- Consultancy services and targeted advice and support
- Research programmes and projects
