

# Berlin-Poznań Seminar on Discrete Mathematics

## 15-16 November 2013, Gułtowy, Poland

### PROGRAM

<b>Friday</b>		
13:06	arrival at Gułtowy Station*	
13:30	lunch	
14:15	Opening Ceremony	
14:20-15:20	Andrzej Ruciński (Poznań)	<i>Exponential bounds on Folkman numbers</i>
15:20-16:00	coffee	
16:00-16:30	Louis Thérán (Berlin)	<i>Rigidity transitions in random graphs</i>
16:30-17:00	Łukasz Witkowski (Poznań)	<i>Collecting coupons through social networks</i>
17:00-17:15	break	
17:15-17:45	Dennis Clemens (Berlin)	<i>The Oriented Cycle Game</i>
17:45-18:15	Michał Hanćkowiak (Poznań)	<i>Distributed 2-approximation algorithm for the semi-matching problem</i>
19:00	dinner	
<b>Saturday</b>		
9:00	breakfast	
10:00-11:00	Christian Reiher (Hamburg)	<i>Counting odd cycles in locally dense graphs</i>
11:00-11:30	coffee	
11:30-12:00	Zbigniew Lonc (Warsaw)	<i>Achromatic and harmonious colorings of sequences and hypergraphs</i>
12:00-12:30	Jean-Philippe Labbé (Berlin)	<i>Enumeration of singletons and related structures</i>
13:00	lunch	
14:00	departure	

\* if we miss the 12:40 train, there is another one arriving 14:07; in this unlikely event the Friday program will be moved forward by 1h, the last lecture (Hanćkowiak) will be rescheduled to Saturday morning (11:00), and the earlier part of the Saturday program will be moved back by 0.5h (breakfast at 8:30).
